# Sample member ID card

# Benefit coverage, limitations, and requirements

The table below contains the covered procedures for this plan, along with applicable frequency limits and clinical review requirements.

**Prior authorization:** All procedures that contain a "YES" in the "AUTH" section below will require prior authorization. To request a prior authorization, complete a standard ADA claim form, check the box marked "Pre-Treatment Estimate" and submit the required documentation. This may be sent via the provider portal, submitted electronically via your clearinghouse, or mailed to the above Prior Authorizations address. The documents required to complete the authorization review are listed in the Clinical Documentation section below. Prior Authorization is not a guarantee of payment.

Limitations: Procedures are limited to the frequency limits listed in the Limitations section below.

- "Plan Year" refers to a single calendar year (i.e. 01/01/2021-12/31/2021)
- A "Floating Year" is based on the date of service. For instance, if a procedure is allowed once every two Floating Years and the treatment is provided on 06/01/2020, the patient will not be eligible for this procedure again until 06/01/2022.
- Codeset Limits: Any procedures that include a Codeset Limitation have limitations that are connected to other procedures. For instance, Bitewings are limited to one set per six months. This Codeset includes four procedures: D0270, D0272, D0273, D0274.
- Please note that implant supported bridges are not a covered benefit under this plan. Single unit implant supported crowns and implant supported dentures are a covered benefit. Please refer to benefit grid.
